MESSAGE FROM SEO

DR. SAID GOUDA

CHAIRMAN, SAGO PHARMA

At SAGO Pharma, we believe that access to medicine is a responsibility before it is a business. Since our foundation in 2010, we have focused on one mission, enabling healthcare providers and partners to secure essential and hard-to-source medicines through compliant and reliable supply.

Our industry demands precision. Hospitals and institutions do not need “availability claims”, they need controlled sourcing, verified documentation, disciplined storage, and dependable delivery timelines. This is why we built SAGO Pharma with a compliance-first mindset and quality-driven operations, aligned with GDP principles and ISO-based management standards.

“As we grow across international markets, our priorities remain unchanged, patient safety, partner trust, and supply continuity”

We will continue strengthening our capabilities, expanding our manufactured portfolio, and investing in the systems that ensure regulated supply execution across borders.

ABOUT SAGO PHARMA

SAGO Pharma operates where traditional supply channels become limited, urgent, or highly regulated. We support individual patient needs and institutional demand through specialized pharmaceutical access programs, including named-patient supply and orphan drug sourcing, supported by global sourcing capabilities when standard channels are unavailable.

01.

GLOBAL ACCESS STRATEGY

We operate beyond conventional supply limitations by enabling access to critical pharmaceutical products through structured global sourcing pathways, ensuring continuity when standard channels fall short.

02.

COMPLIANT & SPECIALIZED SUPPLY

Our approach focuses on regulated, patient-specific, and hard-to-source medicines, delivered through compliant frameworks that meet institutional, clinical, and regulatory requirements.

VISION AND MISSION

01. VISION

To become the region's leading medical supplier with unparalleled reach, providing trusted health and wellness products, and building winning partnerships that strengthen industry growth.

02. MISSION

To retain market leadership in delivering first-class health products and services that meet consumer needs and support the growth of the pharmaceutical industry.

01.

PHARMACEUTICAL DISTRIBUTION

We deliver regulated pharmaceutical distribution and logistics solutions aligned with international quality and compliance standards, supporting hospitals and healthcare institutions with controlled supply execution.

02.

SUPPLY CHAIN MANAGEMENT

Our supply chain specialists work with manufacturers and partners to design product specific distribution strategies, improving efficiency, reducing operational friction, and strengthening supply continuity to end customers.

03.

Cold Chain and Controlled Storage

SAGO Pharma provides cold chain and controlled storage capabilities as part of our distribution ecosystem, supporting product integrity requirements across regulated handling conditions.

04.

Import and Export Services

We manage regulated import and export operations aligned with international trade requirements, documentation readiness, and compliance workflows necessary for cross-border pharmaceutical supply.
